## Winter 2011-2012 SNOW Delays

Dear Advisor:

With the arrival of winter weather, our thoughts turn to the possibility of school closings and delays. I would like you to be aware of our snow policy regarding high school blood drives.

1. In the event your school district has a one-hour delay, the blood drive will start one hour late.
2. In the event your school district has a two-hour delay, the blood drive will be at your discretion to start late or be rescheduled.
3. In the event your school is closed, the blood drive will be rescheduled.

If the snow causes a cancellation of your blood drive, I will contact you to reschedule the event for another date.

If you have any questions regarding these procedures, please feel free to call me at the Blood Center at 1-800-223-6667.

Sincerely,

Marsha Hess Springel  
Donor Resources Manager
